UNIVERSAL ELECTRIC INTRODUCES STARLINE B250 TRACK BUSWAY

Universal Electric Corp. (UEC), the leader in customizable power distribution systems, has introduced its newest product innovation, the STARLINE B250 series Track Busway system.

Designed to meet the evolving power distribution needs of data centers worldwide, the new STARLINE B250 Busway System is the most advanced solution available where specific ratings and customer requirements are needed. The product is one of the first in the industry to address changes in electrical installation requirements for data centers which include:

- Rated at 250 Amps, 600Volts A.C. and D.C.
- B250N system with Optional Oversized Neutral
- Halogen Free Design
- Standard and Isolated Ground Options
- Compact and Lightweight Construction
- B250G System with isolated ground Rated to 600V
- Plug-in units Rated to 125A, 600V
- 250NG fully rated
- Meets UL857 Standard and IEC standards

In addition to the features outlined above, this product also provides interchangeability between STARLINE B250 and B400 Busway plug-in units, offering easy upgrades and utilization of standard plugs in any size facility.

Innovators of flexible products designed to fit the electrical power needs of any business in any industry, Universal Electric is dedicated exclusively to flexible power distribution products. The company's signature STARLINE brand is the industry's leading alternative to the restrictions of traditional wiring methods and the most flexible solution that allows access to power anywhere it is needed.

About Universal Electric Corp.

Universal Electric Corporation, the leader in customizable power distribution, has been an industry innovator for more than 85 years. Designed to meet the changing electrical power needs of any business requiring ultimate flexibility, STARLINE products have revolutionized electrical power distribution in data centers, industrial manufacturing facilities, retail chains and grocery stores worldwide. UEC's recent global expansion initiatives have resulted in an international portfolio of STARLINE customers located in 21 countries.
